

## **Hand Protection**

**We are leading Manufacturers of all types of Surgical & Industrial Hand Gloves in India**

### **Range of Hand Gloves –**

#### **1) Latex Surgical Gloves –**

We are reputed amongst the trusted Surgical Gloves Manufacturer and Suppliers in India. The Surgical Hand Gloves offered by us are made up of excellent quality materials that ensure high durability. Additionally, customers are eased with the availability of the customized Sterile Surgical Gloves as per the specifications and as per certification provided.

Types of Surgical Gloves :

#### **α) Non Sterile Surgical Gloves:**

Surgical gloves are made from the highest quality latex. They are powdered with absorbable dusting powder. These are smooth, low moisture content and powdered surface adds comfort and fitting. It provides maximum protection against harmful substances during operation and examination

Size – 6” , 6.5”, 7”, 7.5”, 8”, 8.5”, 9”, 9.5”, 10”, 12” 14” 16” 18” 20”, 22”

#### **β) Powder Free Surgical gloves :**

They are also used in medical clean room environments, where the need for cleanliness is often similar to that in a sensitive medical environment

#### **γ) Examination Gloves :**

We provide superior quality sterile and non sterile powder free examination gloves manufactured from finest quality latex. Non sterile gloves can be availed in dispenser box and sterile powder free gloves are offered in pair pack. These gloves have rough texture.

Sizes - small, medium, large and extra large sizes.

δ) **Sterile Surgical Gloves :**

We are manufacturing and supplying Latex Sterile Surgical Powder Gloves which offers an exceptional grip without compromising tactile sensitivity. Before being supplied to the clients, these are stringently tested to assure the lowest possible protein levels in order to minimize the chance of developing allergic sensitivities.

ε) **Vinyl Examination Gloves :**

Vinyl gloves are very soft and comfortable to wear. They are resistive to acids, fats & alcohols. They are used for examination and medical purposes. They come with powder & powder free.

2) **Cotton Hosiery Gloves – Single & Double Layer**

We are leading Manufacturers of Cotton Hosiery Hand gloves. These gloves are utilized in diverse industrial applications involving packing and precision work.

These gloves are made from finest quality material to ensure durability and high performance

We provide a wide range of cotton knitted hosiery gloves. These gloves are made available in varying thickness, natural color cotton, and can be customized as per clients requirements.

3) **Disposable Plastic Gloves – Small, Medium, Large(Surgitex Brand)**

Polyethylene disposable hand gloves (made from 100% virgin recyclable high density polyethylene)

**Advantages :**

- Fit to either hand
- Powder less/sulphur free
- Packed in a polyethylene bag
  
- Extra protection against any kind of contamination

**Applications :**

- In Industries as safety product.

- In pharmaceutical companies.
  - In pesticides manufacturing units.
  - Chemical manufacturing units.
  - Food processing units.
  - Fisheries.
  - Domestic uses like gardening, dishwashing, while applying hair colour or henna.
  - Hotels, Restaurants and Fast food outlets.
  - Sizes above 30" are used exclusive for veterinary purpose.
- As medical examination gloves.

**Standard Size :**

10" , 12" , 14" , 20" , 25" , 30" , 33" , 38"

**Color :**

Transparent, Natural opaque (translucent)

**Specifications of Raw Material :**

HDPE, LDPE

**4) Knitted Seamless Gloves**

We are manufacturing and supply a wide range of Knitted Gloves that is available in various sizes, colors and thickness. These include Cotton Knitted Gloves, PU Coated Gloves, Dyneema Knitted Gloves and Seamless Knitted Gloves. Our Knitted Gloves are appreciated by the clients for cut resistant, light in weight and can also be customized as per the application needs of our customers. Further, the range of Knitted Gloves encompasses following:

**5) Cotton Knitted Gloves**

With the support of our expert team members, we are manufacturing a wide range of **cotton knitted gloves**.

These specifications and features are as follows :

- Seamless knitted gloves
- 100% cotton knitting gloves
- Gauge: 7G, 10G

## 6) Criss Cross Knitted Gloves

Seamless **knitted gloves** made from poly-acrylic or poly-cotton - 7 gauge.

### Colour:

- Orange
- Brown
- Yellow.

### Size:

- Medium
- Large.

### Features:

PVC **criss cross** coating double side allows good mechanical protection to the wearer ambidextrous fits either hand.

### Application:

- Aluminum
- Fishing, General handling
- Metal industries.

## 7) Industrial/Post Mortem Gloves

Our **Postmortem gloves** are designed to give a proper gripping and handling comfort.

Size 10” , 12”

## 8) Industrial Acid Alkali Gloves Orange/White/Black

We are listed as one of the most dependable Industrial Gloves Suppliers in India. The Industrial Hand Gloves offered by us are made up of excellent quality materials that ensure notable features like high durability, comfort, softness etc. Moreover, property of resistance to abrasion, harmful chemicals etc has also made the Industrial Safety Gloves ideal for varied industrial applications. Manufactured from natural latex rubber, these gloves are specially developed using a heat resistant technique.

Use in Industries : pharmaceutical, fertilizer industries and chemical plants.

Size – 12”, 14”, 16”, 18”, 20”, 22” , 24 “

9) **Asbestos Gloves**

We offer asbestos gloves to our clients, for varied industry uses. These are made of asbestos which gives it a durable character. It is tough enough to resist high temperature and other harsh working conditions. Our range of asbestos gloves are successfully being used in forging and die casting units for higher temperature.

Specification - Heat Resistant upto 1000 Degree

10) **PVC Dotted Gloves**

We offer a wide range of cotton knitted hosiery gloves with PVC Dots on both sides. These gloves have extra grip and support. Also provide protection against abrasion and friction, supporting the back of the palm. They are available in different sizes and colors like black, blue, yellow and many more

Specification –

Made from superior quality with PVC dots.  
One side dots as well as double side dots are available.  
Perfect grip.  
Most comfortable and durable.

Color- Black, Blue, Yellow,

11) **Industrial Nitrile Gloves. Neoprene Nitrile Coated Gloves/ Heavy Duty Nitrile Hand Gloves**

The nitrile gloves have outstanding physical strength and better resistance against a wide range of chemicals. The raised pattern at palm on gloves provides better & non skid grip. They are chemical resistant, Protects against abrasions, cuts, snags, punctures. Easy to use while handling wet / slippery object. Our seamless Nitrile gloves provide workers with great durability, excellent manual dexterity and outstanding tactile sensitivity. All of our Nitrile products are Latex Free and Silicone Free. Component materials comply with all federal regulations for food contact.

Widely used in oil and petroleum refinery, chemical processing, battery manufacturing, plating, printing, machining, plant maintenance, electronic components etc.

Size: 8", 9", 10", 14", 18".

The range of gloves are as follows:-

- 1.Nitrile unsupported chemical resistance gloves
- 2.Nitrile supported gloves ( Heavy , Medium & Light Work )
- 3.Natural latex gloves
- 4.Neoprene gloves

These gloves come in various varieties

- 1.Thickness available 11, 15, 18 & 22 mil.
- 2.Gloves available with cotton flock lined.
- 3.Gloves are available with inner fleece fabric to absorb sweat.
- 4.Gloves are nitrile coated that gives protection from various solvents, diesel and various acids.

5. The gloves can be used for various applications.

- a.Food Industry.
- b.Pharmaceutical.
- c.Engine Rooms, etc.
- d.For Light, Medium

12) **Surf Industrial Gloves/Household Gloves/ Cleanroom Gloves**

We offer Household gloves that are used at home and commercial establishments. The gloves are provided in various forms for different purposes such as washing utensils, handling hot things, cutting vegetables and others.

The PVC **Supported** Chemical Resistant Hand **Gloves** are lined with interlock-knitted cotton. These **gloves** are used for applications requiring protection from oils and liquid chemicals. They are available in different lengths. The PVC **Supported** Chemical Resistant Hand **Gloves** are available in yellow color .

Size - 26 cm, 35 cm and 40 cm.

14) Heat Resistant Hand Gloves

We offer heat Resistant gloves to our clients, for varied industry uses. These are made of a superior quality which gives it a durable character. It is tough enough to resist high temperature and other harsh working conditions. Our range of gloves are successfully being used in forging and die casting units for higher temperature.

#### 15) **Kevlar Cut Resistant Sleeves**

Kevlar gloves are knitted from Dupont para aramid fibre yarn. These are strong and durable in nature due to their high strength-to-weight ratio, of the Kevlar fiber that is used. Hence they offer complete protection from cuts and abrasions. They are completely useful when using sharp objects like knives or when handling sheet material. The best feature of the glove is that it is ambidextrous, that is either glove can fit either hand. These gloves are very comfortable and prevent nasty cuts and wounds.

Heat resistance 250 deg. C for continuous operating & 700 deg. C. for short term exposure.

Perfect grip and protection against friction.

(i) With or without inside cotton lining

(ii) With or without an antislip PVC dot / coating.

Size : Medium and large.

#### 16) **Latex Coated Gloves**

We are offering Latex Coated Knitted Gloves which have touch sensitivity with Heavy-Duty Protection. These have a unique blend of neoprene over 100% natural latex gives unmatched dexterity and tear resistance.

Electrical Gloves

These gloves are widely used in electrical and allied industries. Made from specially compounded latex for compute insulation. 100% shock proof.

Size - 5 KV, 11 KV, 15 KV,22kv,25kv,33 KV.

As per IS Standard 4770 with test certificate.

#### 17) **Dyneema Gloves**

It helps for handling glass, steel and metal objects. Offers resistance against cuts and abrasion .13G, PU Coating, Palm dipped Material Blend Structure.

Sizes Available 7, 8, 9, 10.

### 18) Aluminized Gloves

We manufacture aluminized gloves that are used for protection against radiant heat, sparks and molten metal mesh. The fabric and material that is used in the gloves reflects 95% of radiant heat.

The aluminized gloves can easily resist sparks, molten splash and abrasion and protect from radiant heat up to 2,000°F. The fiber blend is a heavy-duty 19-ounce fabric that provides first-class guard from radiant heat. The use of this fabric offers great durability and protection. In addition, Kevlar adds excellent abrasion and cut resistance to the gloves.

Widely used in the foundries, steel mills, casting shops, heat treating operations and welding shops.

### 19) Poly-Urethane Coating on Nylon Gloves

Thin Polyurethane Coating Provides good breathability and dexterity, non-slip grip, lint free usage Perfectly contoured hand shape for a close flexible fit, assembly of electronic products, semi-conductors, computer industries, cd making, handling glass, food processing, clean-room, automotive industries for precision work, inspection of medicine and food products. Same PU coated also available in para-aramid knitted seamless liner art pu-pa suitable for cut and abrasions resistance, heat resistance as it combines light weight and comfort with protection.

Seamless Nylon Liner with PU Coating on Palm, 15 Gauge

Color:

White on White/Grey on Grey

### 20) Stainless Steel Chain Gloves

Stainless steel & Titanium metal mesh gloves provides highest level of protection

against cut, slash & laceration hazards in cutting operation.

21) **Orange / White Finger Cots**

We are leading manufacturers of Finger Cots . Our finger cots provide full protection and a high gripping power to the customers. These are also free from any allergic reaction. Wisely used for products highly sensitive to contamination. These are for one time use only and are highly cost effective.

22) **Canadian Gloves**

The Canadian hand gloves are known for their heat and chemical resistant capacity. We manufacture an array of grain Canadian gloves that are provided with lining and are comfortable. This are widely used in automotive, components assembly, jobs in oily and wet conditions
